LEADERSHIP

I always believe that a man to be a leader must have a vision. A man who sees only the little things about him and worries about those things near at hand becomes so involved in detail that he does not get very far. A leader must be able to rise above the ordinary routine and must see beyond, and must see clearly enough so that his path will be direct and that he will make for his goal. As he goes along, those about him who are interested in his mission will follow.

—G. I. Christie.

The Ford Sedan, with electric starting and lighting system, demountable fims with 3 1/2-inch tires all around, is the ideal family car because of its general utility and refined and comfortable equipment. Finely upholstered. Plate glass windows. An open car in the spring, summer, and early fall. A closed car in inclement weather and winter. Rain-proof, dust-proof. In the city or the country, a family car. The low cost of operation and maintenance is not the least of its charms. Won't you come in and look it over?

The secret of such high-quality in the Brunswick Phonograph

The Brunswick is a 100 per cent Brunswick product, not assembled. Parts are not bought here and there. Cabinets are not picked up from different builders. Brunswick controls every process, every detail. From the raw wood to the final finishing, Brunswick decides the standards. This accounts for the all-round goodness of The Brunswick—the freedom from flaws, the everlasting uniformity. Brunswick is not dependent on fluctuating conditions outside. And need not make compromises. This is not a new policy. But it has been one of the old-time ideals of the House of Brunswick. Since 1945 Brunswick has been building to meet the highest standards — no woodcrafting organization in the world is more famous. In every Brunswick Phonograph we include the Brunswick idea of high quality. No instrument goes out without complete inspection.
